Mr. Melvin Coonrod
Permitting and Compliance
Co-Op Mining Company
P.O. Box 1245
Huntington, Utah 84528

Dear Mr. Coonrod:

Re: Conditional Approval of PAP Amendment, Deletion of Road Culverts
from Approved Mining and Reclamation Plan, Co-Op Mining Company,
Bear Canyon Mine, ACT/015/025-87F, Folder #2, Emery County, Utah

Division Hydrologist Tom Munson has completed reviewing the revised plans received November 9, 1987 for the PAP amendment referenced above. Co-Op has requested approval to delete two road culverts not within the approved permit area for the Bear Canyon Mine. Since the culverts are not located within the permit area of the approved mining and reclamation plan (MRP), they should not be considered part of the approved MRP. The culverts have been deleted from Plate 7-1, but still must be removed from Table 7.2-7 and other PAP text in Chapter 7, where they are discussed. Co-Op's latest response to the Division's November 3, 1987 review is approved with the following condition(s):

- 1) Co-Op Mining Company must submit eight (8) copies of revised table 7.2-7, and plate 7-1 which removes references to culverts C2R, and C3R from the approved mining and reclamation plan.

Please provide all of the requested information by January 15, 1988. Thank you for your cooperation and attention to this matter. Please call John Whitehead, or Tom Munson should you have questions regarding this amendment review.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
